# STRESS-FREE REDECORATION

# SUPERSEAL™

WATERPROOFING AND PAINTING (PTY) LTD

SUPERSEAL was conceived with the vision to be a painting contracting brand that is relevant in the lives and close to the hearts and minds of all stakeholders in sectional-title schemes. To this end, we offer services addressing the specific needs of managing agents and Bodies Corporate.

## We understand

that when multiple stakeholders are involved in a project, superior communication is key. That is why our online project management tool keeps you and all concerned up-to-date every step of the way.

## We understand

that Health and Safety is a top concern for agents and trustees who are responsible for the wellbeing of many individuals. That is why our Consulting Services include all aspects of Health and Safety and why we make sure that we comply fully with all relevant legislation, making it one less thing for you to worry about.

## We understand

that raising special levies for redecoration projects takes time. That is why our Pay Delay payment plan allows work to commence immediately while giving you up to 3 months with no payments and 6 months without interest.

## We understand

that coordinating a redecoration project involving multiple tenants and residents is complicated and stressful. That is why we work quickly using the latest and most efficient methods of application to minimise disruption and ensure that everyone is able to keep doing what they need to do.

## We understand

that trust is earned. That is why we hold ourselves to the SUPERSEAL Promise and why we are a proud affiliate member of the National Association of Managing Agents.

# We understand.
