WATERPROOFING AND PAINTING

Loans provided by SUPERSEAL are based on the criteria that the Body Corporate already has 50% of the loan amount available as reserve, that 90% of levy payments have not been delinquent over the last 12 months and that reserves accumulated over the next 6-12 months will be sufficient to cover the entire loan amount. Financial statements of the Body Corporate will be required on request over the period of the loan. Interest is due and payable in the event that payments are not made by the due date, or should the Body Corporate default in any other manner.
